

PRODUCT SHEET

INSTALLED BARRES

All STAGECRAFT Ballet Bars use 50mm Tasmanian Oak - finely sanded and finished in satin epoxy clear laquer.

Metal parts are powder coated to the colour of your choice.

The centre of a Standard barre is 1070mm above the floor. Other heights available upon request.

Where dual barres are required, the lower bar is at 760mm above the floor.

Portable Barres are also available.

Model:16BF1

Single Barre - Floor Mounted

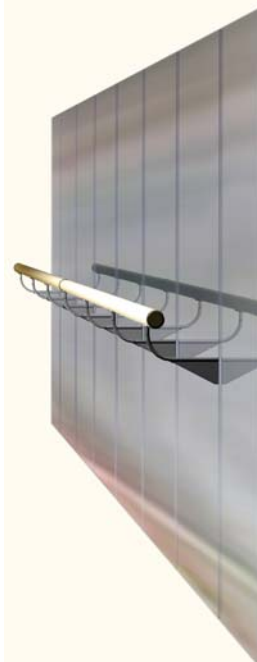

Installation of floor mounted barres requires the base plates to be securely bolted to the concrete slab below the finished timber floor.

Wall mounted barres should be attached to a concrete or masonry structural wall.

Model:16BW

Single Barre - Wall/Mirror Mounted

Model:16BF2

Double Barre - Floor Mounted
